Morning. Can we lock in the September pickup schedule this week?

Me (alex.rivera@example.com) · iMessage · Tue 1 Sep 2026, 08:20:00 PDT

Yes. I was thinking I do Mondays and Tuesdays, you do Wednesdays and Thursdays, and we alternate Fridays?

Sam Park (+12065550187) · iMessage · Tue 1 Sep 2026, 08:31:00 PDT

That works. I'll take the first Friday.

Me (alex.rivera@example.com) · iMessage · Tue 1 Sep 2026, 08:33:00 PDT

Great. I'll put it in a calendar and send you a picture tonight.

Me (alex.rivera@example.com) · iMessage · Tue 1 Sep 2026, 19:05:00 PDT

Looks right. Mia has swimming on Thursdays now, 4:30 to 5:15, so I'll pick her up from the pool those days.

Me (alex.rivera@example.com) · iMessage · Tue 1 Sep 2026, 19:42:00 PDT

Noted. Does she need her swim bag on Wednesday nights then?

Sam Park (+12065550187) · iMessage · Tue 1 Sep 2026, 19:50:00 PDT

Yes please, the blue one with the goggles in the side pocket.

Thursday 3 September 2026

Me (alex.rivera@example.com) · iMessage · Thu 3 Sep 2026, 15:02:00 PDT

I can, I'll leave work early. Can you forward me the reminder?

Sam Park (+12065550187) · iMessage · Tue 8 Sep 2026, 12:41:00 PDT

Me (alex.rivera@example.com) · iMessage · Fri 11 Sep 2026, 15:25:00 PDT

Hi, I'm at the school gate for pickup. Is Mia with you?

Me (alex.rivera@example.com) · iMessage · Fri 11 Sep 2026, 15:38:00 PDT

The front office says she left at 3:15 with a parent. Just checking it was you.

Sam Park (+12065550187) · iMessage · Fri 11 Sep 2026, 15:43:00 PDT

Yes, sorry! I thought this Friday was mine. She's here with me, all good.

Me (alex.rivera@example.com) · iMessage · Fri 11 Sep 2026, 15:45:00 PDT

OK, glad she's fine. The calendar has me down for the 11th though.

I think so. I'll check tonight.

This page lists the software, the sources read with a fingerprint of each database read, the export settings, the selection and the SHA-256 hash of each exported attachment. SHA256SUMS.txt in the export folder lists the same attachment hashes plus the hashes of this PDF and the Excel file, so anyone can check that the files have not changed since they were exported.
